PRODUCT INFORMATION

Product name: Glass Feeding Bottle

WARNING! Always use this product with adult supervision. Never use feeding teats as a soother. Continuous and prolonged sucking of fluids will cause tooth decay. Always check food temperature before feeding. Glass bottles may break. Throw away at first signs of damage or weakness. Keep components not in use out of the reach of children. Due to strangulation hazards do not extend cords or loops. Never attach to cords, ribbons, laces or loose parts of clothing. The child can be strangled.

- Before first use, clean the product thoroughly and then proceed to sterilize by placing the components in boiling water for 5 min. This is to ensure hygiene.
- Before each subsequent use, clean carefully using mild, warm, washing up liquid. Rinse thoroughly in clean water and proceed to sterilize to ensure hygiene.
- Avoid harmful substances in the wash up liquid.
- Dishwasher safe on top rack.
- Inspect the teat before each use and pull the feeding teat in all directions. Throw away at the first signs of weakness or damage.
- Do not leave a feeding teat in direct sunlight or heat, or leave in disinfectant for longer than recommended, as this may weaken the teat.
- Take extra care when microwave heating; localized over heating can occur.
- Always mix the heated food and check the temperature before feeding. For your child's safety and health.

Place and date of issue: Stockholm, 10-03-2026
